## Golf Tip

The pros make a powerful, fluid swing look effortless. A beginner, on the other hand, can often find himself missing the ball entirely. Follow the steps below to insure that you are in a stable, athletic position to return the club to the ball with effortless power:

**Align Thyself:** Picture a set of railroad tracks running from the tee box to the green. Your body is aligned on the inside rail. Your ball is on the outside rail, which runs in a straight line from the tee box to the pin.

**Spread Thy Feet:** Your feet should be shoulder width apart, with your weight balanced on the balls of your feet.

**Posture, Please:** Flex your knees slightly, bend at the hips and keep your spine straight. No slouching!

**Relax:** Loosen your death grip on your club. You want to hold the club securely without squeezing too tightly. You also want to keep your body relaxed and not rigid.

Now play away!
