Being a member has its benefits! Mosaic Explorer is your portal to play golf at more than 1,000 private clubs and to enjoy custom vacations, sporting events, concert tickets and unique experiences across the United States including Mosaic Clubs & Resort's own properties. It is one of the many benefits of being a member! Do you have questions about how to utilize this valuable resource? temperatures are on the way to South Carolina! Since we are fortunate to have the opportunity to play golf year-round there are some things to keep in mind.

- Cold air is heavier than warm air. What does this mean? It means that your golf ball will not stay in the air as long as it does in the summer months. For example, if you are hitting a 7-iron from 150 yards in July and August it may take a 6- or 5-iron to reach the middle of the green in December and January. Additionally, you are wearing multiple layers of clothing in the winter which will restrict your swing.

- It takes 24-hours to warm or cool the core of your golf balls. You can't drop your golf balls in hot water an hour before your round and expect them to perform. During the winter months **DO NOT** store your clubs/balls in the garage or trunk of your car. A cold golf ball combined with cold air equals mega distance loss.

- Take extra time to stretch and warm up before the round. It's a challenge to get loose before the round and a challenge to stay loose during.

Keeping those things in mind, know that your scores will probably go up during the winter months so keep your goals within reach and have fun! Keep playing during the cold months you'll be ahead of the person who stops all together when spring arrives.
