Golf Tip

Use less loft when chipping from around the green.

Many times a player will use their lob wedge around the green no matter what the circumstance they are faced with which can lead to an inconsistent short game. Most of the time we can be more successful if we take a lower lofted iron and strike the ball more like a putt. This motion will generally make it easier to get the ball close and eliminate the awful chip shots.

With only good swings in mind,

Mike Burroughs | Director of Golf
