Golf Tip of the Month

Keep your Focus Small

We have all heard the term "Keep your eye on the ball!" Most of the time in trying to keep our eye on the ball we end up restricting our swing and our natural ability. A better thought would be to 'keep you focus small' Instead of looking at the whole ball throughout the swing, concentrate on a very small spot like a certain dimple on the ball. This will increase your focus while keeping your head down and still through the golf swing.

With only good swings in mind,

Mike Burroughs
Director of Golf
