## June Tennis Tip

Use a mini tennis warm up! Before hitting balls from the baseline, stand a few feet behind the service line and rally easy with control of your opponent. This will help get you warmed up and stretched out a bit before going to the baseline and hitting deeper shots which require more movement! Communicate with your opponent and work together to warm up before you try and compete against one another. Good luck on the courts.

## June Golf Tip

### Use Less Loft When Chipping from Around the Green

Many times, players will use their lob wedge around the green no matter what the circumstance they are faced with which can lead to an inconsistent short game. Most of the time we can be more successful if we take a lower lofted iron and strike the ball more like a putt. This motion will generally make it easier to get the ball close and eliminate the awful chip shots.

**Mike Burroughs,**  
Director of Golf
