Golf Tip

Keep Your Focus Small

We have all heard the term "Keep your eye on the ball!" This statement has been said for generations to help others with looking up or just moving your head in general. Unfortunately, most of the time in trying to keep our eye on the ball we end up restricting our swing and our natural ability. A better thought would be to "keep your focus small" instead of looking at the whole ball throughout the swing, concentrate on a very small spot, like a certain dimple on the ball. This will increase your focus while keeping your head down and still through the golf swing.

Please see Mike or Shane for further help learning such a great drill.
