October Golf Tip

How to Hit More Consistent Pitch Shots

Most amateurs who struggle with pitching the ball do so because they try

to hit the shot with just their hands. They forget the fundamentals of the golf swing. It is important to remember that even the small shots require a shoulder turn and some leg movement. The next time you practice hitting short pitches, treat the shot like a mini swing keeping the club in front of you while turning back and through the ball.

Please see Mike or Shane for just a tune up or something more, 803-714-2620.
